

# SAFETY DATA SHEET

Revision date 16-Oct-2024

Version 3

## Section 1: Identification

### Product identifier

**Product name** Endoproteinase AspN Reaction Buffer (2X)

**Product No** B8104

### Other means of identification

**Synonyms** None

### Recommended use of the chemical and restrictions on use

**Recommended use** This product is for research and development only

**Uses advised against** No information available

### Details of the supplier of the safety data sheet

#### Supplier

New England BioLabs (Australia) Pty Ltd  
22/270 Ferntree Gully Road  
Notting Hill, VIC 3168

**E-mail address** info.au@neb.com

### Emergency telephone number

**Company Phone Number** 0800 437 209

**National Poisons Centre** 0800 764 766 (toll free)

**24 Hour Emergency Phone Number** Chemtrec +65 3163 8374

**Section 2: Hazard identification****GHS Classification**

Chronic aquatic toxicity

Category 2

**Label elements****Hazard statements**

Toxic to aquatic life with long lasting effects

**Precautionary Statements - Prevention**

Avoid release to the environment

**Precautionary Statements - Response****Spill**

Collect spillage

**Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

**Other hazards which do not result in classification**

Harmful to aquatic life.

**Section 3: Composition/information on ingredients**

| Chemical name | CAS No.   | Weight-% |
|---------------|-----------|----------|
| Zinc Sulfate  | 7733-02-0 | 0 - 10%  |

|                           |             |         |
|---------------------------|-------------|---------|
| Non-hazardous ingredients | Proprietary | Balance |
|---------------------------|-------------|---------|

**Section 4: First-aid measures****Description of first aid measures****Inhalation**

Remove to fresh air.

**Eye contact**

Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.

**Skin contact**

Wash skin with soap and water.

**Ingestion**

Rinse mouth.

**Most important symptoms and effects, both acute and delayed**

Symptoms No information available.

**Indication of any immediate medical attention and special treatment needed**

Note to physicians Treat symptomatically.

**Section 5: Fire-fighting measures****Suitable extinguishing media**

Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Large Fire CAUTION: Use of water spray when fighting fire may be inefficient.

Unsuitable extinguishing media Do not scatter spilled material with high pressure water streams.

**Special exposure hazards in a fire**

Specific hazards arising from the chemical No information available.

**Protective equipment and precautions for firefighters**

Special protective equipment and precautions for fire-fighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

**Section 6: Accidental release measures****Personal precautions, protective equipment and emergency procedures**

Personal precautions Ensure adequate ventilation.

For emergency responders Use personal protection recommended in Section 8.

**Environmental precautions**

Environmental precautions See Section 12 for additional Ecological Information.

**Methods and material for containment and cleaning up**

Methods for containment Prevent further leakage or spillage if safe to do so.

Methods for cleaning up Pick up and transfer to properly labeled containers.

**Precautions to prevent secondary hazards**

Prevention of secondary hazards Clean contaminated objects and areas thoroughly observing environmental regulations.

**Section 7: Handling and storage****Precautions for safe handling**

**Advice on safe handling** Handle in accordance with good industrial hygiene and safety practice.

**Conditions for safe storage, including any incompatibilities**

**Storage Conditions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Incompatible materials** None known based on information supplied.

## **Section 8: Exposure controls/personal protection**

**Control parameters**

**Exposure Limits** This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

**Biological occupational exposure limits** This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies.

**Appropriate engineering controls**

**Engineering controls** Showers  
Eyewash stations  
Ventilation systems.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection** No special protective equipment required.

**Hand protection** No special protective equipment required.

**Skin and body protection** No special protective equipment required.

**Respiratory protection** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

**Environmental exposure controls** No information available.

## **Section 9: Physical and chemical properties**

**Information on basic physical and chemical properties**

**Physical state** Liquid  
**Appearance** Colorless  
**Color** No information available  
**Odor** Mild.  
**Odor threshold** No information available

| <b><u>Property</u></b>                         | <b><u>Values</u></b> | <b><u>Remarks • Method</u></b> |
|------------------------------------------------|----------------------|--------------------------------|
| <b>pH</b>                                      | No data available    | None known                     |
| <b>Melting point / freezing point</b>          | No data available    | None known                     |
| <b>Initial boiling point and boiling range</b> | No data available    | None known                     |
| <b>Flash point</b>                             | No data available    | None known                     |
| <b>Evaporation rate</b>                        | No data available    | None known                     |
| <b>Flammability (solid, gas)</b>               | No data available    | None known                     |
| <b>Flammability Limit in Air</b>               |                      | None known                     |
| <b>Upper flammability or explosive</b>         | No data available    |                                |

|                                               |                           |            |
|-----------------------------------------------|---------------------------|------------|
| <b>limits</b>                                 |                           |            |
| <b>Lower flammability or explosive limits</b> | No data available         |            |
| <b>Vapor pressure</b>                         | No data available         | None known |
| <b>Vapor density</b>                          | No data available         | None known |
| <b>Relative density</b>                       | No data available         | None known |
| <b>Water solubility</b>                       | No data available         | None known |
| <b>Solubility(ies)</b>                        | No data available         | None known |
| <b>Partition coefficient</b>                  | No data available         | None known |
| <b>Autoignition temperature</b>               | No data available         | None known |
| <b>Decomposition temperature</b>              |                           | None known |
| <b>Kinematic viscosity</b>                    | No data available         | None known |
| <b>Dynamic viscosity</b>                      | No data available         | None known |
| <b>Explosive properties</b>                   | No information available. |            |
| <b>Oxidizing properties</b>                   | No information available. |            |
| <b>Other information</b>                      |                           |            |
| <b>Softening point</b>                        | No information available  |            |
| <b>Molecular weight</b>                       | No information available  |            |
| <b>VOC content</b>                            | No information available  |            |
| <b>Liquid Density</b>                         | No information available  |            |
| <b>Bulk density</b>                           | No information available  |            |
| <b>Particle characteristics</b>               | No information available  |            |

## Section 10: Stability and reactivity

### Reactivity

**Reactivity** No information available.

### Chemical stability

**Stability** Stable under normal conditions.

### Explosion data

**Sensitivity to mechanical impact** None.

**Sensitivity to static discharge** None.

### Possibility of hazardous reactions

**Possibility of hazardous reactions** None under normal processing.

### Conditions to avoid

**Conditions to avoid** None known based on information supplied.

### Incompatible materials

**Incompatible materials** None known based on information supplied.

### Hazardous decomposition products

**Hazardous decomposition products** None known based on information supplied.

## Section 11: Toxicological information

### Acute toxicity

### Information on likely routes of exposure

**Product Information**

**Inhalation** Specific test data for the substance or mixture is not available.

**Eye contact** Specific test data for the substance or mixture is not available.

**Skin contact** Specific test data for the substance or mixture is not available.

**Ingestion** Specific test data for the substance or mixture is not available.

**Symptoms** No information available.

**Acute toxicity****Numerical measures of toxicity**

The following values are calculated based on chapter 3.1 of the GHS document

ATEmix (oral) 99,999.00 mg/kg

ATEmix (dermal) 99,999.00 mg/kg

ATEmix (inhalation-gas) 99,999.00 ppm

ATEmix (inhalation-vapor) 99,999.00 mg/l

ATEmix (inhalation-dust/mist) 99,999.00 mg/l

**Component Information**

| Chemical name | Oral LD50            | Dermal LD50          | Inhalation LC50 |
|---------------|----------------------|----------------------|-----------------|
| Zinc Sulfate  | = 1710 mg/kg ( Rat ) | > 2000 mg/kg ( Rat ) | -               |

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Skin corrosion/irritation** No information available.

**Serious eye damage/eye irritation** No information available.

**Respiratory or skin sensitization** No information available.

**Germ cell mutagenicity** No information available.

**Carcinogenicity** No information available.

**Reproductive toxicity** No information available.

**STOT - single exposure** No information available.

**STOT - repeated exposure** No information available.

**Aspiration hazard** No information available.

**Data used to identify the health effects** Refer to Section 16 for Key literature references and sources for data used to compile the SDS.

## Section 12: Ecological information

### Ecotoxicity

#### Aquatic ecotoxicity

Toxic to aquatic life with long lasting effects. Harmful to aquatic life.

#### Unknown aquatic toxicity

0 % of the mixture consists of component(s) of unknown hazards to the aquatic environment.

| Chemical name | Algae/aquatic plants                                            | Fish                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Crustacea                                                                                            |
|---------------|-----------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Zinc Sulfate  | EC50: =0.056mg/L (72h, <i>Pseudokirchneriella subcapitata</i> ) | LC50: =0.162mg/L (96h, <i>Oncorhynchus mykiss</i> )<br>LC50: 0.03 - 0.05mg/L (96h, <i>Oncorhynchus mykiss</i> )<br>LC50: 0.34 - 0.93mg/L (96h, <i>Oncorhynchus mykiss</i> )<br>LC50: 0.218 - 0.42mg/L (96h, <i>Pimephales promelas</i> )<br>LC50: =0.06mg/L (96h, <i>Pimephales promelas</i> )<br>LC50: 0.23 - 0.48mg/L (96h, <i>Pimephales promelas</i> )<br>LC50: 0.168 - 0.25mg/L (96h, <i>Pimephales promelas</i> )<br>LC50: =0.15mg/L (96h, <i>Cyprinus carpio</i> )<br>LC50: 16.85 - 27.18mg/L (96h, <i>Cyprinus carpio</i> )<br>LC50: 3 - 4.6mg/L (96h, <i>Lepomis macrochirus</i> )<br>LC50: 3.55 - 6.32mg/L (96h, <i>Lepomis macrochirus</i> )<br>LC50: =0.63mg/L (96h, <i>Poecilia reticulata</i> )<br>LC50: 49.23 - 64.16mg/L (96h, <i>Poecilia reticulata</i> )<br>LC50: 0.48 - 1.72mg/L (96h, <i>Poecilia reticulata</i> ) | EC50: =0.75mg/L (48h, <i>Daphnia magna</i> )<br>EC50: 0.538 - 0.908mg/L (48h, <i>Daphnia magna</i> ) |

#### Terrestrial ecotoxicity

| Chemical name | Earthworm                                                                           | Avian | Honeybees |
|---------------|-------------------------------------------------------------------------------------|-------|-----------|
| Zinc Sulfate  | Acute Toxicity: LC50 = 733 mg/kg ( <i>Eisenia foetida</i> , 2 Days soil dry weight) | -     | -         |

#### Persistence and degradability

No information available.

### Bioaccumulative potential

#### Bioaccumulation

There is no data for this product.

### Mobility in soil

#### Mobility

No information available.

**Other adverse effects**

No information available.

**Section 13: Disposal considerations****Waste treatment methods****Waste from residues/unused products**

Dispose of product in packaging in a way that is consistent with the EPA Consolidation 30 April 2021 of the Hazardous Substances (Disposal) Notice 2017 and the Act.

Treat the substance using a method that changes the characteristics or composition of the substance so that the substance is no longer a hazardous substance; or export the substance from New Zealand as waste.

Environmentally hazardous substances – if the substance, or if it contains a component that is hazardous to the aquatic environment or bioaccumulative and not rapidly degradable, then any component that is bioaccumulative and not rapidly degradable must be removed. The product may only be discharged into the environment if an environmental exposure limit has been set for the substance (or a component of the substance); and the discharge does not, after reasonable mixing, result in the concentration of the substance in an environmental medium exceeding the environmental exposure limit.

**Contaminated packaging**

For packages that have been in direct contact with hazardous substances, the person must ensure that the package is rendered incapable of containing any substance. It must be disposed of in a manner that is consistent with the requirements for disposal of the substance that it contained, taking into account the material the package is manufactured from.

Packages may only be reused or recycled if:

- the substance has a physical hazard other than corrosive to metal, and has been treated to remove any residual contents of the hazardous substance;
- or for substances that have a health or environmental hazard, or corrosive to metal, the contents of the residue in the package are below the threshold for the substance to be classified as hazardous in the Hazardous Substances (Hazard Classification) Notice 2020.

**Section 14: Transport information****IATA**

Not regulated

**IMDG**

Not regulated

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

No information available

**Special precautions for user**

Please refer to the applicable dangerous goods regulations for additional information

**Section 15: Regulatory information****Regulatory information****EPA New Zealand HSNO approval code or group standard**

To be determined

**National regulations**

There are no applicable tolerable exposure limits or environmental exposure limits according to the EPA Controls for Hazardous Substances

**Certified handlers, tracking and controlled substance license requirements**

Certified handlers are required for some substances. This includes substances requiring a controlled substance license, and most explosives, vertebrates toxic agents, and certain fumigants. Acutely toxic substances which are a Category 1 or 2, such as pesticides also

require Certified handlers. Please check the Health and Safety at Work Act 2015 for further information

Tracking is required for some highly hazardous substances. These substances need to be under the control of an appropriately trained person or appropriately secured. Please check the Health and Safety at Work Act 2015 for further information

Controlled substance licenses are required to possess certain explosives, vertebrate toxic agents and fumigants. See Part 7 of the Health and Safety at Work Regulation 2017 for more information

### **International Regulations**

**The Montreal Protocol on Substances that Deplete the Ozone Layer** Not applicable

**The Stockholm Convention on Persistent Organic Pollutants** Not applicable

**The Rotterdam Convention** Not applicable

### **International Inventories**
